It focuses on both the practice and the profession of law and is considered a "must-read" by lawyers, corporate counsel, judges, law professors and students.

## Innovative use of Technology

In order to offer you fast, efficient and flexible service Gasco Goodhue St-Germain uses modern, state of the art technology. Your relationship with us is enhanced through the use of:

- Onsite servers backed up offsite to reduce the risk of information being lost and ensuring access to all stored information at any time.
- Video conferencing offering cost saving opportunities. Depositions, discoveries and client meetings can all be done without the expense of travel.
- Disaster recovery plan for servers, email and voice communications ensuring that downtime is minimized and continuity of service is maintained.
- Internet protocol telephone system to eliminate geographic boundaries, increase integration with other applications and reduce costs.
- VPN or Virtual Private Networks to ensure privacy and to provide our team with access to information at all times.
- Wireless communication is standard so you are able to keep in touch and our responsiveness is improved.
- Digital file transfer making the exchange of large files and documents simple and helping in collaboration with clients, other law firms or any 3rd party organizations.

**Successful legal resolutions require experience, creativity, industry expertise and a proactive approach. Gasco Goodhue St-Germain LLP combines all of these elements to deliver value, while remaining focused on client satisfaction.**
